REDI LAB

SUMMER ACADEMY

A highly individualized learning experience with all the support required for students to identify and to execute a project of their choice.

What Is REDI Lab?

REDI Lab is an authentic and hands-on learning experience in any discipline you choose. You get to enjoy the freedom to explore and learn at your own pace and to find new passions, explore new ideas, and execute a project.

In the REDI Lab, we build community around passions and interests in order to create value by sharing ideas.

What Will Students Gain?

- New skills and confidence
- Unique and personalized letter of recommendation for post-high school needs
- Professionally produced video of their final presentation
- Access to a community and network of supporters to help in future endeavors
